 - Lumber- Reliable Lumber
 - Hardware- variety of reputable sources
- Better Business Bureau Member AAA Rating
- Workers Compensation and General Liability insured

Certification of Sustainable Forest Management

Castlebrook supports third party certification of forestry practices and environmental management systems for all of our lumber vendor's forests. An example of one of the standards for certification is the Sustainable Forestry Initiative® (SFI) standard. This standard focuses specifically on the practices of growing and harvesting trees, such as providing stream buffers, protecting wildlife habitat and preventing soil erosion.

Warranty:

- Limited, Lifetime on structural components
- 40 years on roofing by manufacturer
- 10 years prorated on lumber

Service:

- In-house customer service representatives and projects managers
- One point of contact for all service issues

Barn Components:

- Uniform Building Code (UBC) and California Building Code (CBC) compliant
- Engineered by certified Structural Engineers
